Ce sunt jaluzelele plisse și cum funcționează?

Jaluzelele plisate sunt soluții elegante de umbrire pentru ferestre, alcătuite din pliuri de material textil. Acestea sunt proiectate să ofere atât intimitate, cât și control asupra luminii solare.

Funcționează prin ridicarea și coborârea lor pe verticală, iar pliurile se adună compact atunci când jaluzelele sunt ridicate, lăsând să pătrundă lumina, sau se extind pentru a acoperi fereastra complet atunci când sunt coborâte, oferind intimitate totală și blocând lumina excesivă.

Ce caracteristici sunt unice pentru jaluzelele plisse?

Jaluzelele plisate sunt unice prin faptul că sunt singura opțiune de umbrire care poate fi acționată de sus în jos.

Ele oferă flexibilitatea de a fi strânse sau deschise de sus în jos, de jos în sus sau chiar la mijloc, permițând controlul precis al luminii. De asemenea, sunt singurele jaluzele care permit deschiderea completă a ușii sau geamului. În plus, când sunt rabatate, rămân aproape de geam, ocupând foarte puțin spațiu și oferind un aspect ordonat și plăcut.

Tipuri jaluzele plisse:

- Jaluzele plisse cu prinderea între baghetele geamului
- Jaluzele plisse cu prinderea pe rama geamului
- Jaluzele plisse pentru geamurile de mansardă/inclinate
- Jaluzele plisse cu prinderea pe geamurile culisante de terasă/balcon - fără găurire

Culori profile de aluminiu – sistem de acționare jaluzele plisse:

Alb

Gri deschis

Antracit

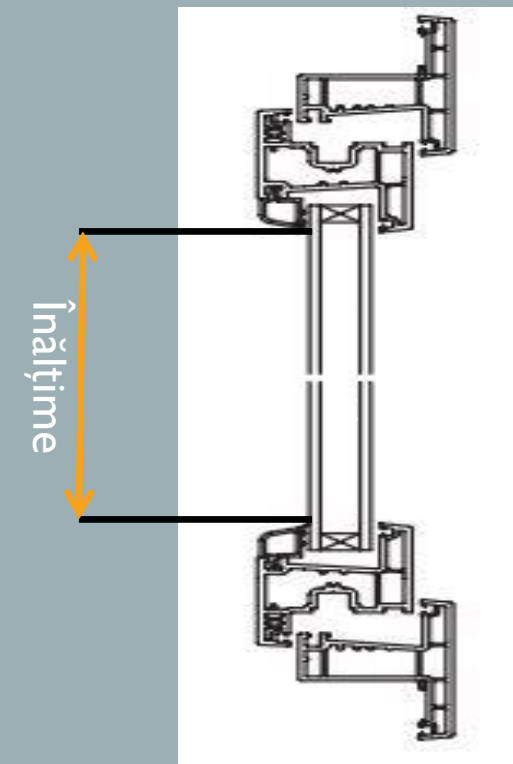

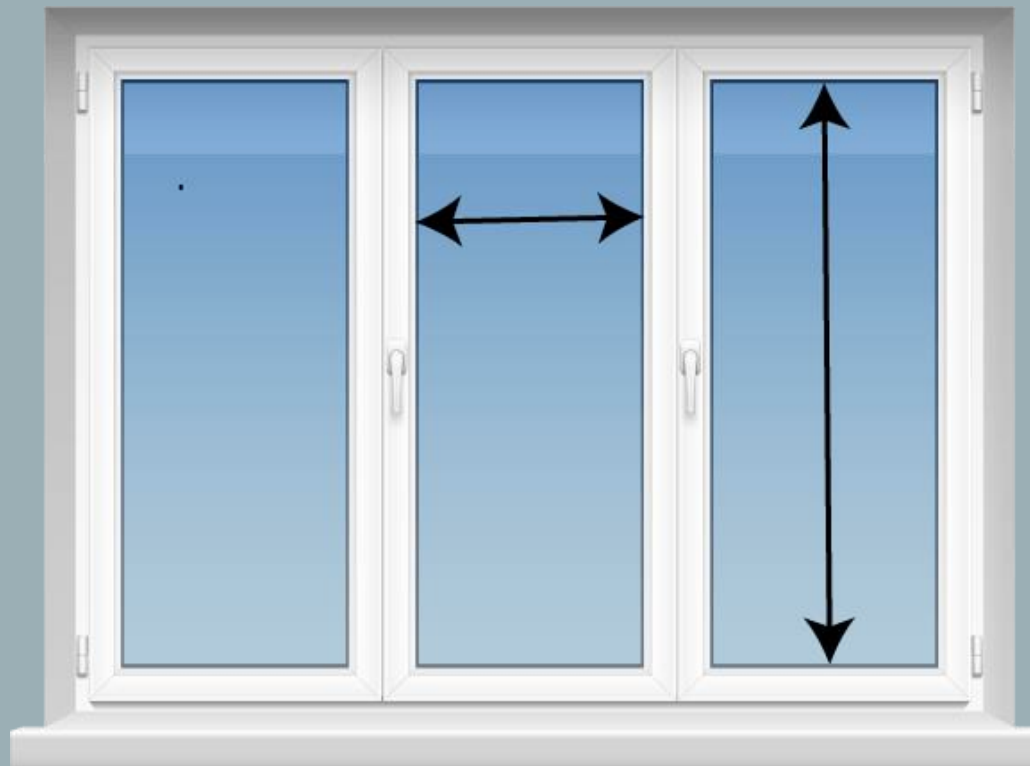

Crem

Maro

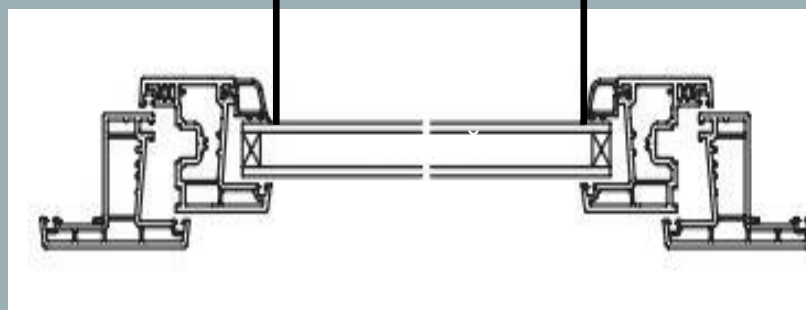

Instrucțiuni pentru măsurarea jaluzelelor plisse cu prindere între baghetele geamului

Pentru prinderea între baghetele geamului se măsoară pe lungime și înălțime doar sticla, fără chederul negru/gri.

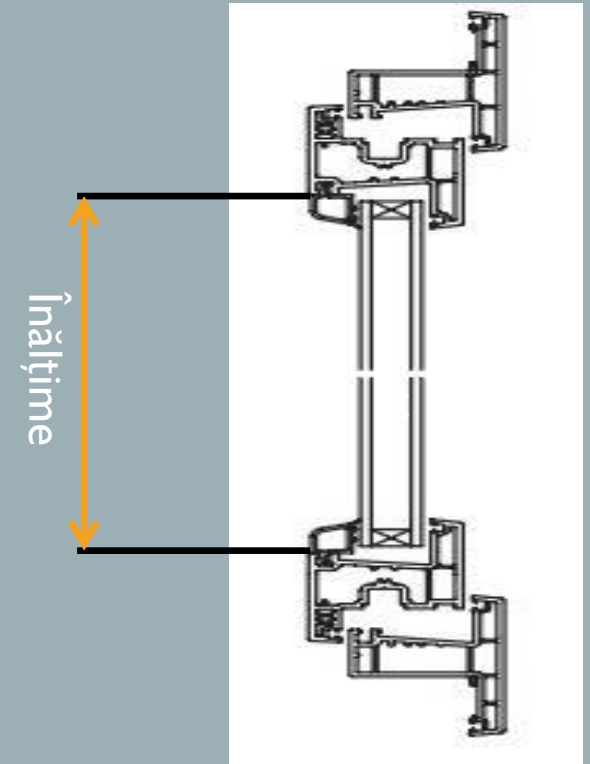

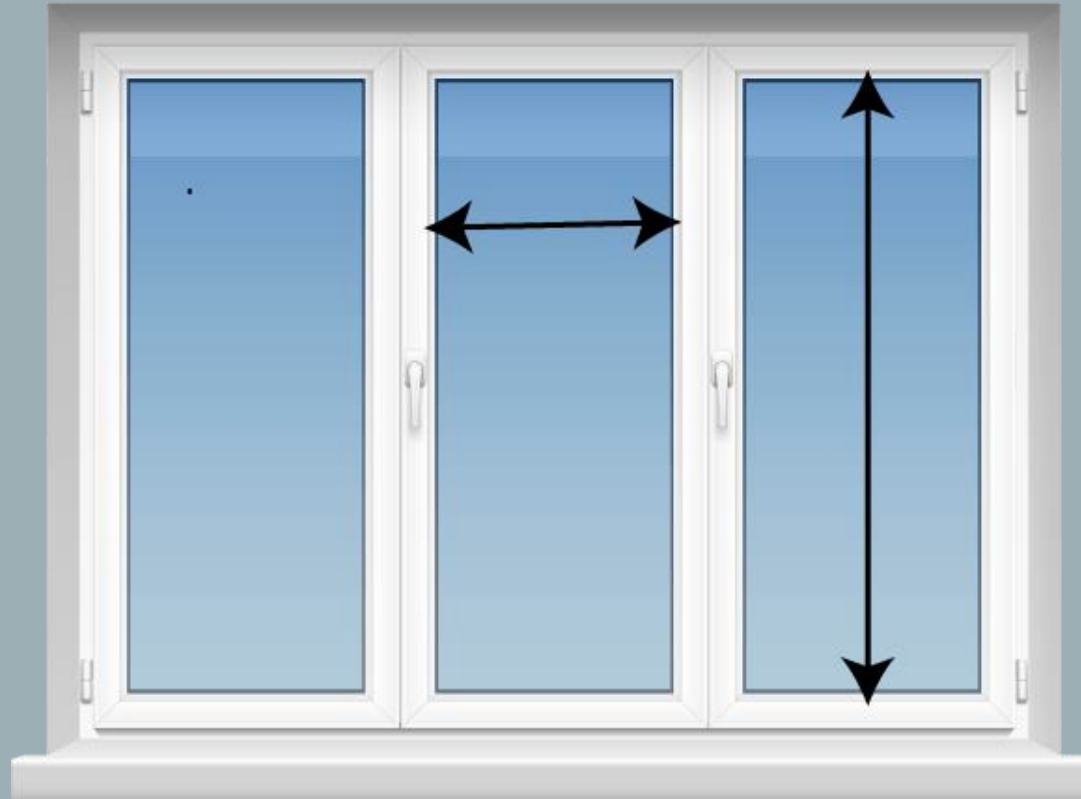

lungime

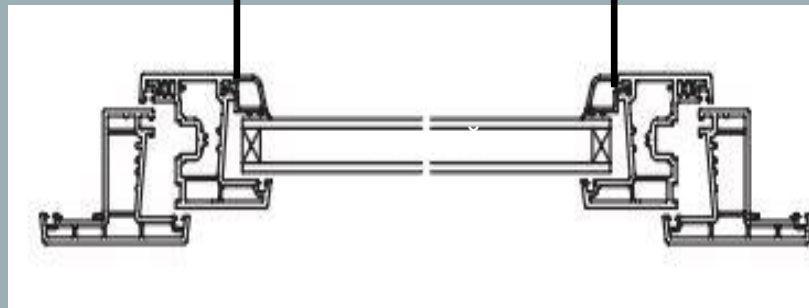

Instrucțiuni pentru măsurarea jaluzelelor plisse cu prindere pe rama geamului

Pentru prinderea pe rama geamului se măsoară pe lungime și înălțime sticla plus baghetele (fiecare baghetă are aproximativ 2 cm).

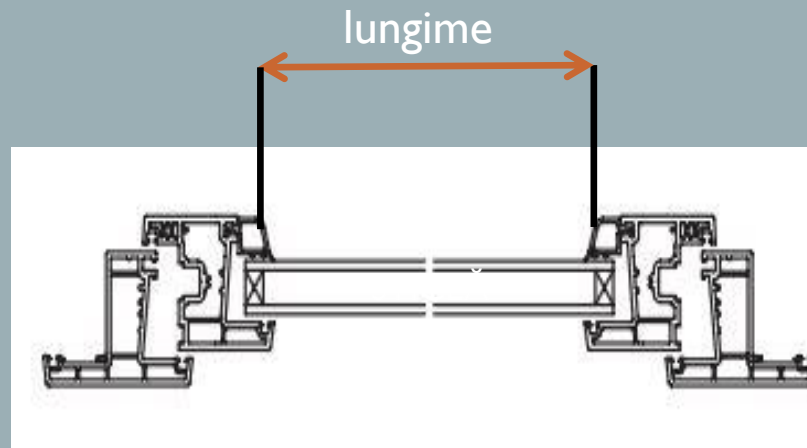

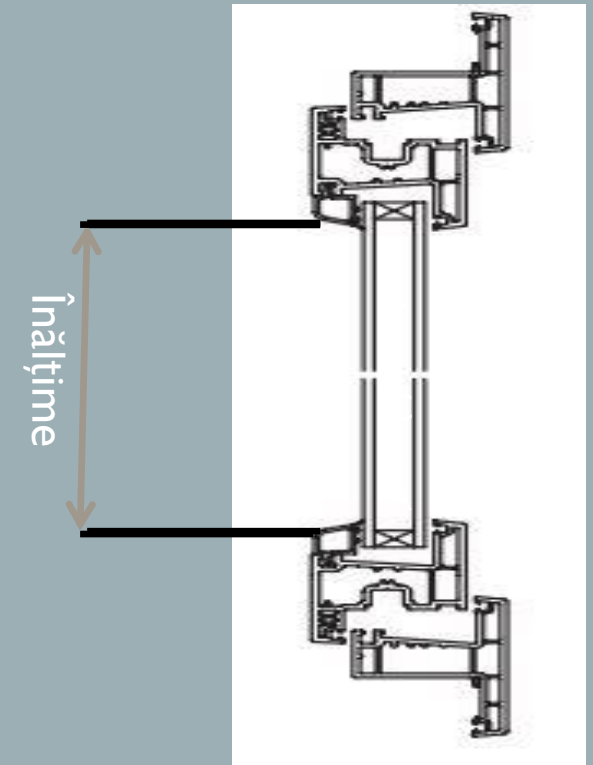

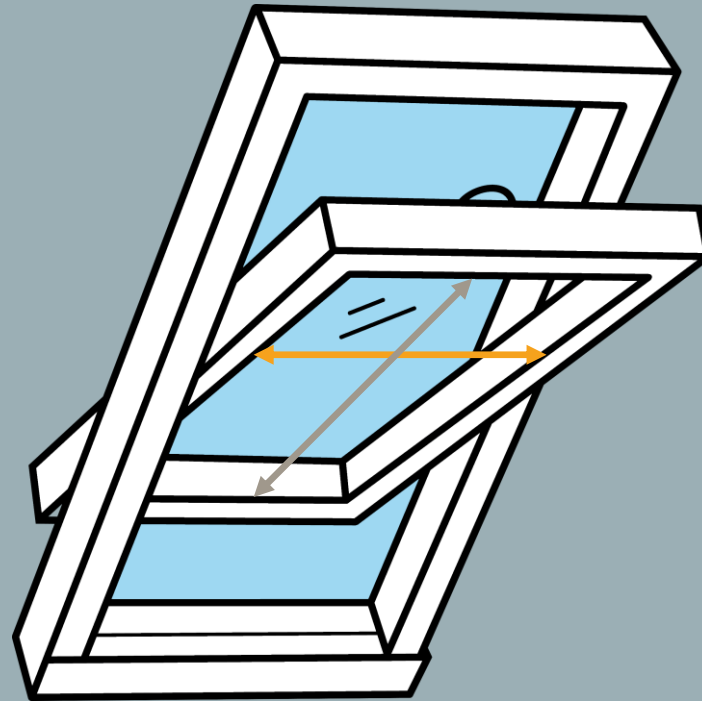

lungime

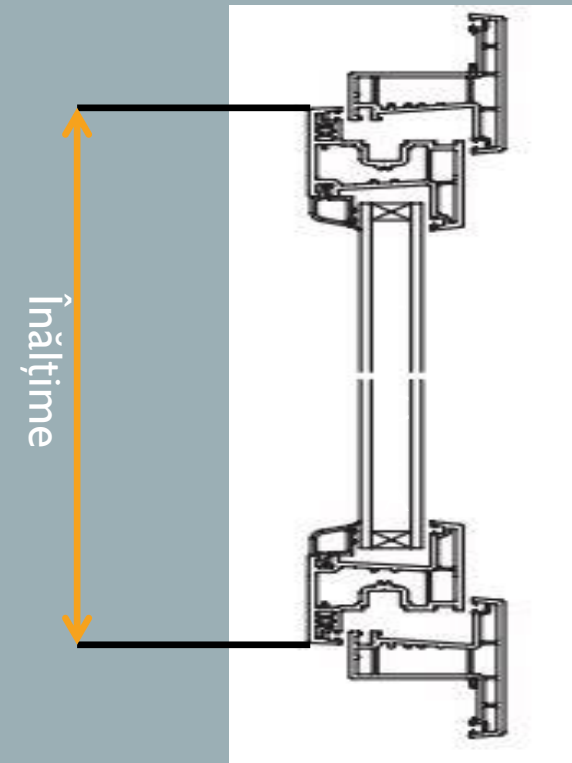

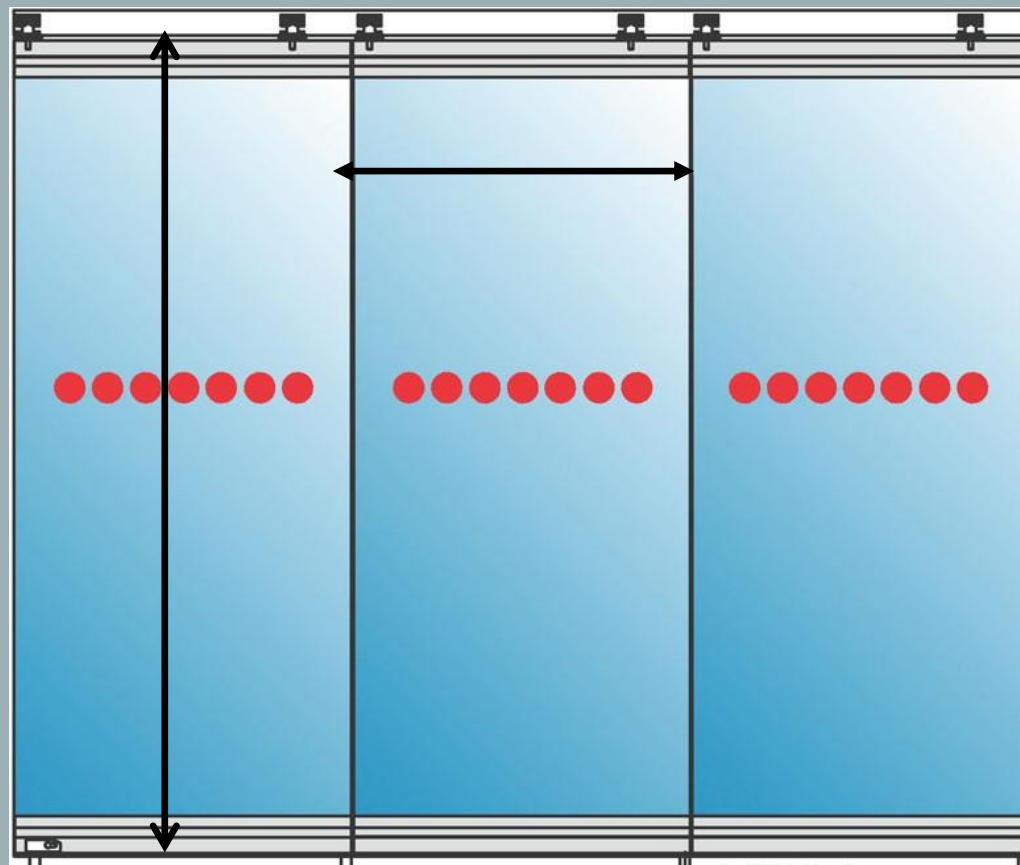

Instrucțiuni pentru măsurarea jaluzelelor plisse pentru geamurile în plan înclinat/de mansardă

Pentru prinderea pe ferestrele de mansardă se măsoară pe lungime și înălțime golul ferestrei (la partea exterioară – spre cameră).

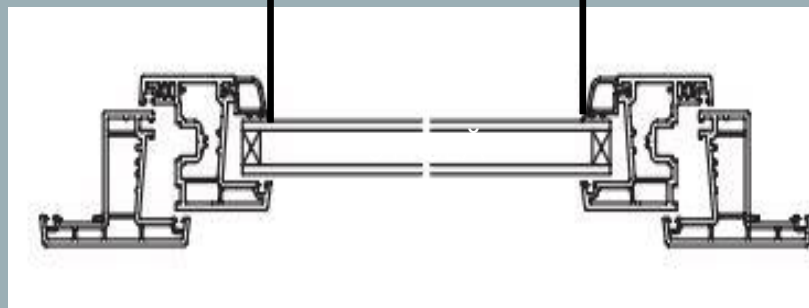

Instrucțiuni pentru măsurarea jaluzelelelor plisse pentru geamurile de terasă/balcon

Pentru prinderea cu cârlig pe rama geamului culisant (de terasă/balcon) se măsoară pe lungime exact dimensiunea sticlei și pe înălțime sticla plus rama de prindere.

lungime
